

# UNLOCKING CARBON REMOVAL ON A GIGATON-SCALE.

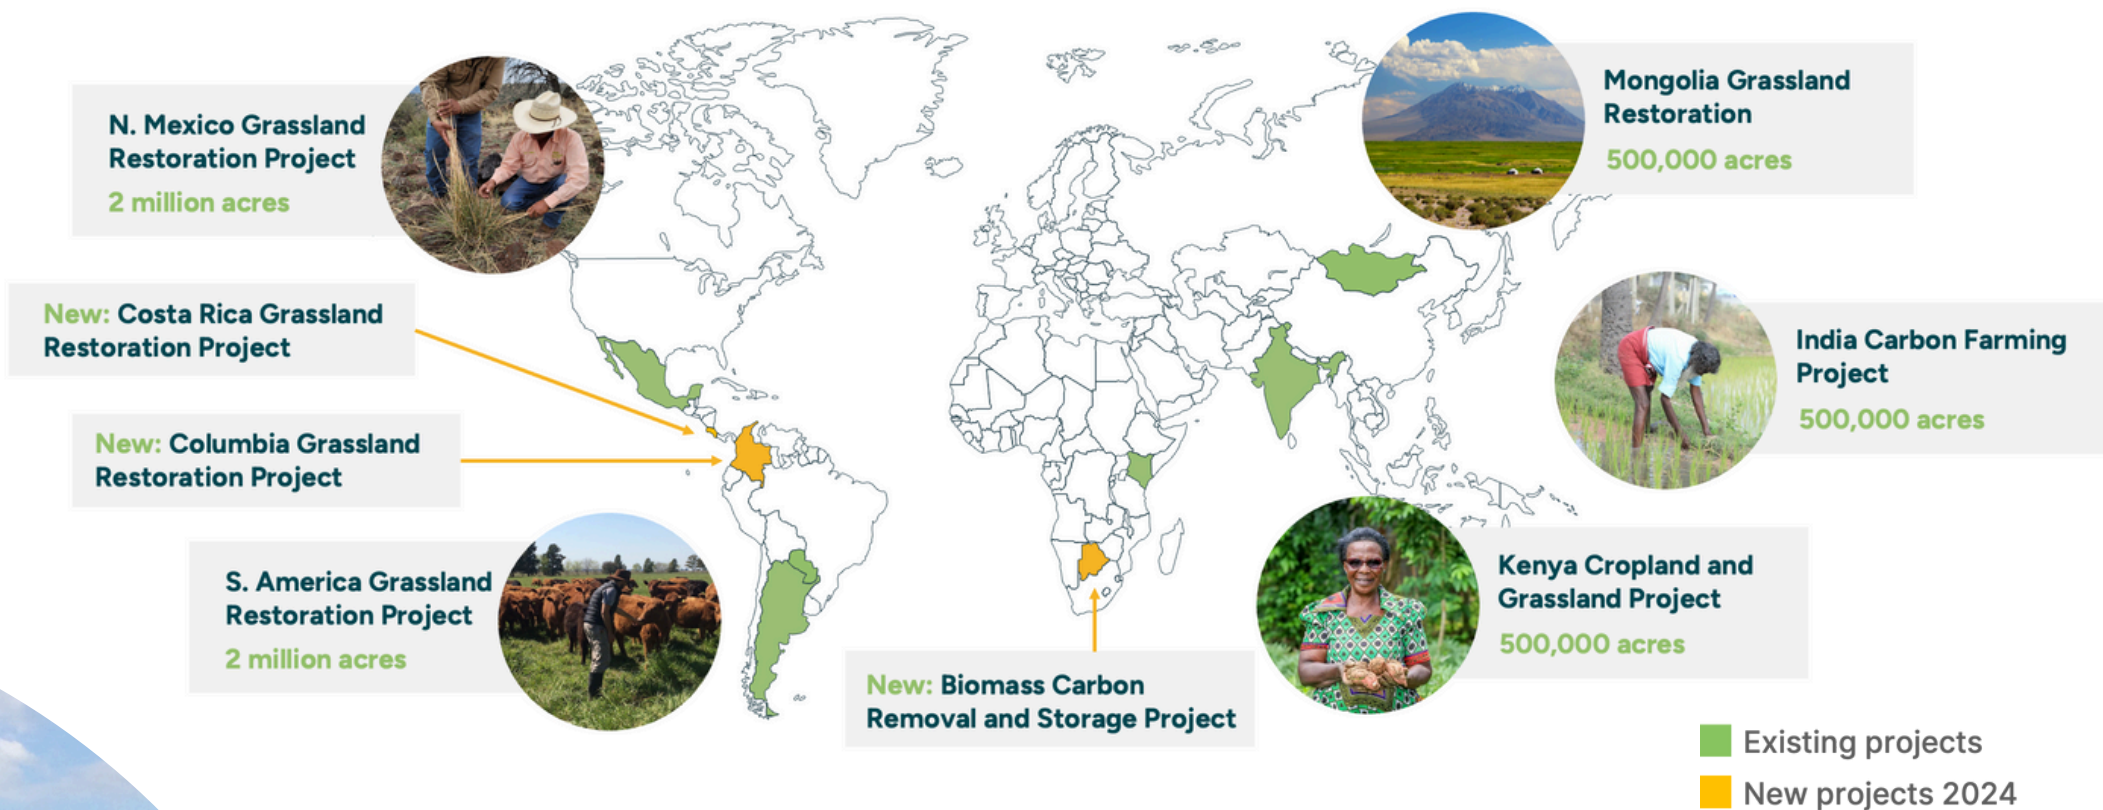

## About Boomitra:

Boomitra, a **globally recognized carbon project developer**, collaborates with farmers and ranchers around the world to implement agricultural practices that increase soil carbon sequestration. Leveraging cutting-edge, proprietary remote sensing and AI technology, Boomitra precisely monitors, records, and verifies soil carbon levels to generate **high-quality removal credits**. Together with our global network of implementation partners, we are empowering farming and ranching communities to mitigate climate change and build resilience.

## Boomitra's business model:

## Boomitra's existing and new projects:

## Boomitra's impact to date:

**4** continents  
**5M+** acres enrolled  
**100K** farmers enrolled  
**100+** partners  
**10M** tons of CDR
