Artisanal Biochar Carbon Removal

• Live

The Problem

- Inefficient buyer trust and transparency
- Minimal benefits to local communities
- Operational continuity for Nature based solutions

Competitive Edge

- Deep ground level operations and biomass sourcing
- Strong farmer network enabling low-cost feedstock
- Scalable technology partnerships with global biochar developers
- Biochar and bio-oil sales JV

Our offering

- **Artisanal Biochar Carbon Credits- 500,000+ by 2030.**
- **Industrial Biochar Carbon Credits- 100,000+ by 2030.**

Our Biochar Projects

**Varaha's
Implementation
Partner**

(8,000+ carbon credits
produced for Varaha)

Industrial Biochar Carbon Removal

• Deployment

Our Solution

- Building Full-proof dMRV tools
- Ratings certified projects
- Transparent community benefit Impact Dashboards
- Organised partnerships and robust farmer network
- Operational expertise
